## INFORMED CONSENT FOR CHIROPRACTIC TREATMENT

Please read this entire document prior to signing it. It is important that you understand the information contained in this document and that you notify your chiropractor of any questions or concerns.

By any standard, a chiropractic adjustment is a conservative and very safe procedure. However, we would like to notify you that there is a very remote possibility for injury from a chiropractic adjustment. These complications can include, but are not limited to, fracture, disc injury, dislocation, muscle strain, cervical myelopathy, costovertebral strains or separations and burns. These complications usually occur more often in individuals with pre-existing conditions, which may predispose them to injury.

Something all patients should be aware of when initiating chiropractic care is the risk of stroke following treatment. In 2010, a study was performed by Cassidy et al. which examined this proposed risk. It was concluded that the incidence of stroke following chiropractic care is very minimal.

As part of the chiropractic analysis, examination, and treatment process you are consenting to the following, as recommended by your Doctor of Chiropractic. **Please initial each of the following as documentation of your consent:**

| <input type="checkbox"/> Ultrasound                  | <input type="checkbox"/> Electrical Muscle Stimulation |  |

*I understand that there are risks to any treatment that I have. I also understand that my doctor has given me a treatment plan that best suits my condition and that I have that information to make my own decision on whether or not to have the recommended treatment. I understand the remote possibility of an injury from a chiropractic treatment and elect to receive the recommended treatment.*

## **PAYMENT POLICY**

If your insurance policy provides for chiropractic services, this is our payment plan.

**LIMITED ASSIGNMENT:** We will submit a bill for services to your insurance company and wait for payment directly from them. This can take anywhere from 30 to 90 days. If you have a deductible, **you will be responsible** for any amount that you have not met to date. We will send you a statement at the beginning of the month that will include the portion you owe. Any unpaid balances are due on the 15<sup>th</sup> of the month. **Copays are due at time of service.**

**If you require services that are not covered by your insurance company, you will be expected to pay for those services. (Prices are available before the service is performed.) Payment is expected at the time of service.**

Please note that your insurance coverage is a contract between you and your insurance company and that you are ultimately responsible for your bills at Langford & Karls Chiropractic. It is therefore important that **you** contact your insurance company to know your specific chiropractic benefits.

Any charges not paid, whether in full or partial, are considered delinquent. Payment plans are available. Delinquent charges will be assessed an interest rate of (10%) ten percent monthly. In the event that an account becomes delinquent in excess of three months, collective action will take place. A fee of \$20.00 will be charged for any returned checks.

### **NO SHOW POLICY**

We expect a phone call if you are unable to keep your appointment. If we do not hear from you by the time of your appointment, you will be charged a fee of \$20.00 for the missed appointment.

Thank you for your consideration and understanding. We hope that this explanation will answer your questions and clarify our policy. Feel free to ask us any questions regarding the above payment policy.

I have read the above payment policy and understand the terms of payment for this office.
